

CHAITANYA RAJ

+91 8825228574 | 12rajchaitanya@gmail.com | [LinkedIn](#) | [Portfolio](#)

Professional Summary

Aspiring APM with **two product internships** across B2B SaaS, fintech, and health-tech, pairing user discovery, wireframing, and UAT with **hands-on SQL analytics** to take products from ambiguous requirements to shipped releases.

Education

National Institute of Technology Agartala

B.Tech, Electrical Engineering

Agartala, India

Dec 2021 – May 2026

Indian Institute of Technology (IIT) Mandi

Minor, Business Analytics — Product Analytics

Remote / Hybrid

Jan 2025 – Apr 2026

Experience

WhatBytes

Remote

Product Management Intern

Mar 2026 – May 2026

- Facing stalled development on a NYC-based recruitment platform, led a team of **3 developers** to resolve **5 critical blockers**, delivering the prototype **1 week ahead of schedule**.
- Tasked with launch readiness for a crypto-fintech app, ran UAT across the sign-up funnel, identifying and resolving **10 bugs** and leading design improvements to the onboarding flow.
- To de-risk development of an enterprise platform, designed **9 low- and high-fidelity Figma wireframes** covering the end-to-end flow, surfacing and fixing flow inaccuracies **before build**.
- Owned the **Play Store and App Store release roadmap** for a Latin American fintech app, and ran UAT for a museum art-gallery app while launching **40 artwork pages across 2 galleries**.

Pulsepeek

Remote

Product Management Intern

Jan 2026 – Feb 2026

- To validate the health-tech MVP, conducted **20 user discovery interviews** and synthesized pain points into a prioritized PRD that reshaped the MVP feature set.
- Translated the PRD into **5 wireframes** covering the core app experience, partnering with founders and developers to deliver the prototype **2 weeks ahead of schedule**.
- Ran UAT on the prototype before release, turning test findings into prioritized fixes that **reduced engineering rework**.

Projects

UPI Fraud Detection Analytics Dashboard | *SQL, PostgreSQL, Power BI* | [GitHub Repo](#)

Jul 2026

- Built SQL velocity and risk-scoring checks on **590K+ UPI transactions**, surfacing a **2x hourly fraud swing** with thresholds analysts can retune without a model retrain.

Vibeshelf: Cross-Media Recommendation Engine | *LLM Product Design* | [Live Demo](#) | [Case Study](#)

Jun 2026

- Reframed a recommendation problem from ranking to input vocabulary and scoped an LLM tag-matching engine for books, films, and games, shipping a **live 547-title MVP in 48 hours**.

Future-Potential Credit Underwriting Engine | *Python, Streamlit, Plotly* | [Live App](#)

Dec 2025

- Designed a proxy credit-scoring app that uses alternative data to assign risk scores and credit limits to students **without CIBIL history**.

Leadership

MUNSOC NIT Agartala

Agartala, India

Founder & Lead, Student Organization

May 2023 – Nov 2024

- Founded and scaled the society to **120+ active members**, writing SOPs still in use and leading cross-functional teams across **11 national-level events**.

Skills

Product: PRDs, User Stories, Roadmapping, Prioritization (RICE), UAT, User Research, Agile/Scrum

Tools & Analytics: SQL (PostgreSQL), Power BI, Python (Pandas), Figma, Jira, Notion
