Professional Summary

Aspiring APM with **two product internships** across B2B SaaS, fintech, and health-tech, pairing user discovery and wireframing with **hands-on SQL analytics** to take products from ambiguous requirements to shipped releases.

Education

National Institute of Technology Agartala

B.Tech, Electrical Engineering

Agartala, India

Dec 2021 – May 2026

Indian Institute of Technology (IIT) Mandi

Minor, Business Analytics – Product Analytics

Remote / Hybrid

Jan 2025 – Apr 2026

Experience

WhatBytes

Product Management Intern

Remote

Mar 2026 – May 2026

- Facing stalled development on a NYC-based recruitment platform, drove resolution of 5 critical blockers with 3 developers, delivering the prototype **1 week ahead of schedule**.
- Owned launch readiness for a crypto-fintech app: ran UAT across the sign-up funnel, resolved **10 blocking bugs**, and led a redesign of the onboarding flow.
- To de-risk an enterprise platform build, designed 9 low- and high-fidelity Figma wireframes covering the end-to-end flow, surfacing and fixing flow gaps before engineering began.
- Owned the Play Store and App Store release roadmap for a Latin American fintech app, and launched 40 artwork pages across 2 galleries for a museum art-gallery app.

Pulsepeek

Product Management Intern

Remote

Jan 2026 – Feb 2026

- To validate the health-tech MVP, ran **20 user discovery interviews** that identified confusion as the core barrier, and turned the findings into a prioritized PRD: added an in-app guide, and simplified the profile page by cutting customization and secondary metrics.
- Translated the PRD into 5 wireframes covering the core app experience, partnering with founders and developers to deliver the prototype **2 weeks ahead of schedule**.

Projects

UPI Fraud Detection Analytics Dashboard | SQL, PostgreSQL, Power BI | [GitHub Repo](#)

Jul 2026

- Built SQL velocity and risk-scoring checks on **590K+ UPI transactions**, surfacing a 2x hourly fraud swing with thresholds analysts can retune without a model retrain.

Vibeshelf: Cross-Media Recommendation Engine | LLM Product Design | [Live Demo](#) | [Case Study](#)

Jun 2026

- Reframed a recommendation problem from ranking to input vocabulary and scoped an LLM tag-matching engine for books, films, and games, shipping a **live 547-title MVP in 48 hours**.

Future-Potential Credit Underwriting Engine | Python, Streamlit, Plotly | [Live App](#)

Dec 2025

- Designed a proxy credit-scoring app that uses alternative data to assign risk scores and credit limits to students without CIBIL history.

Leadership

MUNSOC NIT Agartala

Founder & Lead, Student Organization

Agartala, India

May 2023 – Nov 2024

- Founded and scaled the society to **120+ active members**, writing SOPs still in use and leading cross-functional teams across 11 national-level events.

Skills

Product: PRDs, User Stories, Roadmapping, Prioritization (RICE), UAT, User Research, Agile/Scrum

Tools & Analytics: SQL (PostgreSQL), Power BI, Python (Pandas), Figma, Jira, Notion
