SUMMARY

Data Analyst with experience in developing end-to-end machine learning solutions, building interactive dashboards, and leveraging SQL and Python to drive business decisions. Eager to apply skills in predictive modeling and data visualization to contribute to the AI/ML Data Governance Solutions Team.

EDUCATION

National Institute of Technology Agartala <i>Bachelor of Technology, Electrical Engineering</i>	Agartala, Tripura Nov 2021 – May 2026
Indian Institute of Technology Mandi <i>Minor in Business Analytics</i>	Mandi, Himachal Pradesh Feb 2025 – Nov 2025
Baldwin Academy <i>Senior Secondary, CBSE 12th Boards - 93.4%</i>	Patna, Bihar June 2018 – June 2020
Don Bosco Academy <i>Secondary, ICSE 10th Boards - 93.6%</i>	Patna, Bihar June 2012 – June 2018

EXPERIENCE

Business Analyst Intern <i>Life Living Welfare Spciety</i>	Oct 2024 – Dec 2024 Prayagraj, Uttar Pradesh
- Developed two PowerBI dashboards to guide project resource allocation using data-driven recommendations - Optimized education and health program effectiveness, leveraging SQL to analyze program and financial data to identify inefficiencies, resulting in a 4% reduction in monthly expenses	
Business Operations Intern (Remote) <i>UnityMUN Consulting</i>	June 2024 – Aug 2024 The Hague, Netherlands
- Spearheaded strategic expansion into the APAC region by securing five new clients from Japan and South Korea Drove a 10% increase in conference attendance through a data-driven outreach and audience targeting strategy	

PROJECTS

Proactive SME Retention Engine <i>Python, XGBoost, SHAP, Streamlit</i>	August 2025
- Architected an end-to-end analytical data product to proactively identify SME cardholder churn, from engineering precursors (e.g., RFM scores) for an XGBoost model (88% precision) to deploying an automated Streamlit dashboard with Prioritization Tiers - Leveraged SHAP to translate complex model outputs into actionable business insights, identifying specific churn drivers to inform customized treatment recommendations and enable data-driven, proactive retention strategies	
Loan Default Risk Prediction App <i>Pandas, Scikit-learn, XGBoost, Streamlit</i>	July 2025
- Engineered an end-to-end machine learning application to predict loan default risk, from data preprocessing to model training using Python - Managed the end-to-end development and deployment of a real-time risk prediction web app, utilizing Streamlit for the interactive UI and Git/GitHub for version control on Streamlit Community Cloud	

POSITIONS OF RESPONSIBILITY

MUNSOC NIT Agartala <i>Founder, Secretary General</i>	May 2023 – Nov 2024
Trained over 120 students and chaired 11 national level events, signed MoUs with 8 INIs	
People of NITA <i>Founder, Project Coordinator</i>	May 2023 – Present
Created a platform to boost alumni engagement, published 20 interviews and drove 3x increase in visibility	

TECHNICAL SKILLS

Programming: Python (Pandas, Scikit-learn, XGBoost), SQL, PySpark **AI/ML:** Predictive Modeling, SHAP, Retention Analytics — **Data Products:** Streamlit, Power BI **Certifications:** Meta Professional Data Analyst
